TO WHOM IT MAY CONCERN

Switched On Electrical have provided sub-contract electrical services to Morris Property Group and its associated entities since 2010.

Switched On Electrical Services provides Morris Property Group with a broad range of commercial and residential electrical services - including design, construction, installation and commissioning. The services also include managing and negotiating with the local Authority with respect to load calculations and the resultant requirement for chamber or padmount substations or utilising existing infrastructure.

The team at Switched On are experienced, professional and competitively priced. They provide their services with honesty and integrity. They work collaboratively with the head contractor and other sub-contractors and meet or better construction programs.

I have no hesitation in recommending Switched On Electrical.

Yours sincerely
MORRIS PROPERTY GROUP

A handwritten signature in black ink, appearing to be 'BJ Morris', written over a faint horizontal line.
